SignatureStat™ Home Comfort Control

Precision humidity and temperature control

Dave Lennox *Signature*[™] Collection *SignatureStat*[™] Home Comfort Control

Lennox makes your HOME... A BETTER Place.®

Precise humidity and temperature control in one easy-to-use device

7-day programmable with up to six time periods per day

Automatic changeover between heating and cooling for enhanced comfort and efficiency

When it comes to comfort, temperature and humidity are both important factors. Now, with the new *SignatureStat*[™] Home Comfort Control you can control both with a single, easy-to-use device. *SignatureStat* Home Comfort Control precisely controls humidity, adding and removing moisture as necessary to assure your complete comfort. It also regulates temperature to within one degree of setpoint.

PRECISION HUMIDITY AND TEMPERATURE CONTROL IN ONE EASY-TO-USE DEVICE.

SignatureStat Home Comfort Control allows you to fine-tune your comfort according to your specific needs—all year. In the winter, when the air is dry, you can add humidity to make your home feel warmer, without increasing temperatures and energy costs. During summer months, you can program the *SignatureStat* Home Comfort Control to lower humidity levels, so you stay cool and comfortable.

SUPERIOR MOISTURE CONTROL

SignatureStat[™] Home Comfort Control removes up to 75 gallons of water per day when combined with select equipment.

***SignatureStat*[™] Home Comfort Control controls humidity, so you have more control over your comfort, health and home environment.**

SignatureStat Home Comfort Control provides outstanding dehumidification by removing up to 75 gallons of water per day when combined with select equipment. Depending on the season, the RH (relative humidity) in your home should range between 30% and 60%. It works with your furnace, air conditioner and humidifier to maintain ideal conditions all year.

WARRANTY*

2-year limited warranty.

*Applies to residential applications only.

SIMPLE, ONE-POINT CONTROL FOR TOTAL HOME COMFORT.

EFFECTS OF HUMIDITY

	Low Humidity (0-25% relative humidity)	High Humidity (60% relative humidity or higher)
Comfort	<ul style="list-style-type: none"> ◆ Makes you feel cooler than actual temperature ◆ Makes you fatigue easily 	<ul style="list-style-type: none"> ◆ Air feels warm and damp
Health	<ul style="list-style-type: none"> ◆ Dry skin/throat ◆ Higher risk of bacterial and viral infections and respiratory ailments ◆ Joint and muscle pain ◆ Sore eyes 	<ul style="list-style-type: none"> ◆ Mold, mildew and dust mite growth, which can aggravate allergies and asthma ◆ Can promote the release of chemicals from household materials (e.g., formaldehyde from carpets)
Home	<ul style="list-style-type: none"> ◆ Warping and splitting of furniture and woodwork 	<ul style="list-style-type: none"> ◆ Condensation or frost on windows

Feature	How It Works
Large, Easy-To-Read Dot Matrix Screen	Displays time, room temperatures and humidity levels.
Menu Buttons	Allow you to quickly advance through feature options.
Backlit Display	The large, easy-to-read panel illuminates with a touch of a button for easy viewing, day or night.
System Status Icons	Show when your system is running.
Fan Control	Allows you to select continuous, automatic or intermittent operation.
Auto Changeover	Automatically alternates between heating and cooling during changing weather for enhanced comfort and efficiency.
Smooth Temperature Transition	Gradually changes room temperature to next program period for increased comfort.
Programming	Allows you to easily set, customize, review or change your typical week's schedule, two, four or six times per day to save energy and money.
Permanent Program Memory	Maintains program in the event of a power loss, indefinitely. No battery required.
Copy Feature	Saves programming steps by automatically copying programs to other days of the week.
Hold Feature	Lets you temporarily change the temperature, without changing the programs, using permanent, temporary or vacation time frames.
Indoor Air Quality Monitor	Provides useful reminder for proper maintenance of indoor air quality products for improved comfort.
Service Monitor	Indicates when your cooling system is not operating properly (with selected equipment).
Security Feature	Prevents unauthorized tampering of programs and settings.
Dual-Fuel Capability*	Increases the efficiency of dual-fuel systems by automatically alternating between gas and electric operation.
Constant Power Supply	Hard-wired to furnace power supply. No changing of alkaline batteries.
Outdoor Sensor	Allows for easy viewing of outdoor temperature.
Condensation Prevention	Automatically adjusts indoor humidity based on outdoor temperature, reducing condensation on windows.

*A dual-fuel system combines a heat pump and a furnace.

Lennox is the first and only HVAC company to be named an EPA (Environmental Protection Agency) ENERGY STAR® Partner of the Year. This prestigious honor reflects Lennox' ongoing commitment to producing high-quality, high-efficiency products.

Partner of the Year

Lennox is proud of the fact that these products have earned the Good Housekeeping Seal.
