A BETTER PLACE™

LENNOX' ELITE® SERIES

Home Comfort Systems

LENNOX' ELITE® SERIES G60 GAS FURNACE. IT'S LIKE HAVING TWO FURNACES IN ONE.

THE TRADITION OF LENNOX LEADERSHIP AND INNOVATION CONTINUES.

*For more than 100 years,
people have trusted Lennox
to make their homes
more comfortable.
The Elite® Series
continues this
tradition, providing
a wide choice of*

*highly efficient, reliable
comfort systems from the
brand you can trust.*

*With impressive features and
efficiencies, the G60 gas
furnace delivers comfort reliably
and economically. No matter
where you live or what your
comfort level, there's a system
to satisfy your needs.*

Comfort heating

The single-stage furnace has been the standard for years. It delivers full heating capacity every time it runs, regardless of weather conditions. This results in a temperature swing of two degrees or more above or below the thermostat setting.

The G60 two-stage furnace sets a new standard. It's like having two furnaces in one: a small furnace (low heat) for mild days and a larger furnace (high heat) for extreme cold days. Because the G60 operates at low capacity about 80% of the time, it runs for longer periods and provides more even heat distribution, regulating temperature to within as little as one degree of the thermostat setting.

Quiet operation

The two-stage design of the G60 accommodates two levels of heating. Since the low setting is adequate to meet household-heating demands approximately 80% of the time, this makes the G60 much quieter than conventional single-stage furnaces.

Energy efficiency

With its two-stage design, the G60 offers more comfort for every energy dollar you spend. With an efficiency rating of 80%, the G60 not only keeps you cozy, it can reduce your energy bills when compared to less efficient furnaces. The additional monthly savings means you'll be comfortable with the return on your investment for years to come.

This chart depicts potential energy savings you can expect from the G60 gas furnace versus older furnaces with lower efficiency ratings. Criteria used in this example are 2,000 full-load heating hours, with a 60,000 Btuh heating design load and \$0.74 ccf for gas. Your actual savings may vary depending on the weather patterns in your local area, local fuel rates and your individual lifestyle. AFUE = Annual Fuel Utilization Efficiency.

Indoor air quality

In addition to providing more even temperatures, low-speed continuous fan operation slowly circulates air between heating and cooling cycles to increase the effectiveness of filters and any other air quality devices you may have.

QUIET, ENERGY-EFFICIENT COMPONENTS.

**G60
GAS FURNACE WITH
SILENTCOMFORT™
TECHNOLOGY**

Comfort Heating

- ① **Two-Stage Operation** – Provides two levels of heat output for greater temperature control, regulating temperature to within as little as one degree of the thermostat setting.

Quiet Operation

- ② **Two-Stage Gas Valve** – Quietly adjusts the amount of gas to accommodate two levels of heating.
- ③ **Insulated Blower Compartment** – Further reduces operating sound for even quieter operation.

Reliable Performance

- ④ **SureLight® Control Board** – Controls furnace operation for reliable and efficient operation.
- ⑤ **Duralok® Heat Exchanger** – Made of high-quality, patented ArmorTuf™ aluminized steel. Life-tested to 2-1/2 times agency requirements (ANSI Standard Z21.47) for long life and durability.
- ⑥ **Durable Steel Cabinet** – Made to last, with an attractive high-quality textured paint finish.

**We build to the highest standards.
We stand behind our warranties.**

The G60 gas furnace is backed by a 20-year limited warranty on the heat exchanger and a 5-year limited warranty on all remaining covered components.
